The following is an extraction from the copyrighted books compiled by the Genealogy Club of Albuquerque, being a Surname Index Compilation extracted from the Albuquerque Daily Citizen newspaper for the years 1888 through 1896. The microfilm records of these years will be found at the Albuquerque Public Library, Special Collections Branch, Albuquerque, New Mexico. Very few divorces were found, but the compiler did include those found in this schedule. The Surname Index Compilation referenced above is a complete work containing the complete names of every person mentioned in the newspaper and also includes references for person's and out-of-state relatives named in those years, and in many cases their previous homes.

Almost all the announcements of births in the first two years, 1888 and 1889, merely announced the fact and usually the sex of the child. Rarely was a given name listed so the column listing event and containing only the letter "B" shows a birth and sometimes the sex, but rarely a name.

Some of the entries show a person from a different state. In many instances this was a relative of a New Mexican, or in the case of marriages, someone marrying a New Mexican.

The compilations of indices of the newspapers indexed and other books and compilations may be found at the Special Collections Library, or may be purchased from The Genealogy Club of Albuquerque, New Mexico. A complete list is found at the end of this compilation.

The compiler used an abbreviation for the place of residence in the interest of conserving space and making all the information fit one line. Please consult that list on a following page of this introduction.

NOTE: The date and page designation is the date of the newspaper article and not necessarily the date of the event. Be sure and check the newspaper for the correct event date.
